## Work **together** to reconcile agricultural production and environment

You are a company, organisation, association involved in

- the development of sustainable agriculture (advice, analysis, manufacture, distribution, services...)
- the enhancement of technical references, collective discussions and consensual position

convinced that rational fertilisation practice is a source of progress

## Join the COMIFER as an associate member

Associate membership is a testament to your commitment to the sustainable fertilisation management, one of the fundamentals of agro ecology.

Get involved, help the COMIFER association in:

- Intensifying its business networking
- Expanding its services offer
- Developing even more projects
- Even better Meeting the needs of all fertilisation professionals

Participating as a relay of the association practical issues help the COMIFER to progress in knowledge, share analysis, and become better known and representative, and internationally visible in the field of sustainable fertilisation.

## ... and get advantages including
